

International eHealth Conference 2011
Venue: Vincci Seleccion Posada del Patio, Malaga, Spain
Dates: 21st – 23rd November 2011

[The City eHealth Research Centre \(CeRC\)](#) invites you to attend, speak at or sponsor the [4th International eHealth Conference 2011](#) in Malaga, 21st-23rd November 2011.

The keynote address will be given by [Dr. Denis Coulombier](#) from ECDC, discussing epidemic intelligence from a European agency perspective. Other confirmed speakers include Corinne Marsolier of Cisco, Dr. Alberto Tozzi of Bambino Jesu hospital, Rome, and Jenny Tooth of Angel Capital.

[eHealth 2011](#) is forging the future of electronic healthcare. Come and discover:

- Web 2.0 technologies that will revolutionise public health, epidemiology and epidemic prediction
- New research challenges, policy drivers and business models in eHealth

[eHealth 2011](#) is a unique thought-leadership & networking forum: a meeting place for healthcare corporates & SMEs / clinicians / public funding bodies / international eHealth agencies / and researchers in eHealth.

If you are a healthcare corporate:

- identify upcoming innovations & industrial partnership opportunities
- understand current international policy initiatives and frameworks
- develop international research partnerships with other stakeholders

If you are a healthcare SME:

- network with key international corporate players in healthcare
- develop partnerships with businesses and researchers
- identify optimal routes to market for new products and services

Special corporate delegate price: €820.00 (deadline for the early-registration discounted price of €700.00: 21st October 2011).

[Register](#) today to secure your place! Registration queries: registration@icst.org

[CeRC](#) is [City University London's](#) internationally recognised centre for multidisciplinary research in eHealth, and is also a provider of real-world digital services and resources to medical professionals.
