

WESTMINSTER ENERGY FORUM

Demand Side Energy Innovation

Practicalities of Delivering, & Managing, Next Generation Technologies

CALL to register for WEF Session 66 - October 20th, 2011 a.m.

This is a call to register for the forthcoming Forum on **Demand Side Energy Innovation & Delivery with DECC, Ofgem & GLA.**

This is a private session for members of the Forum & invited guests, to take place on Oct 20th a.m. at London's City Hall. The session will involve 100 decision-makers and individuals responsible for delivery in this area of policy. This invite is for LTN guest places on a first come, first served basis, subject to availability.

Key briefings run from 9am-1pm, and include:

Key challenges of policy deployment across the distributed energy sectors: matters for the market to address

Andy Cormie, Assistant Director, Distributed Energy and Heat Team, DECC

The Low Carbon Network Fund: evaluation of developments & future deployment challenges

Rachel Fletcher – Director, Distribution, Ofgem

Demand management at the city scale: assessing London's challenges

Peter North, Head of Energy Supply, Greater London Authority

Practicalities of next generation network delivery: Low Carbon London

Ben Wilson, CFO, UK Power Networks

Innovating in a downturn – what does the future hold for the energy sector?

Liz Parminter, Energy Expert, PA Consulting

Innovation for consumer change: the strategic role of energy service companies

Petter Allison, Director – New Energy Business, Centrica

The future smart system toolkit - enabling the market with a utility internet

Patrick Razavet, Director of Utilities and Smart, Cable & Wireless

Commercialising and rolling out microCHP – realizing the potential of residential generation at scale

Bob Flint, Commercial Director, Ceres Power

If you would like to reserve a place please contact me directly asap. A full summary will be circulated to attendees after the session.

Kind regards,

Chris Lambert
Director, Westminster Energy Forum
